## EXPERIENCE

---

### MERKATO STORE | FRONTEND DEVELOPER

MAY 2023 – JUL 2023

- I was the only frontend developer for this project which is creating an e-commerce website from scratch, using React.js, dealing with the their api to represent 400+ products and manage the process until payment.
- The project was finished within 2 months which is a month less than the deadline.
- During the development I found out 3 issues in the backend response.

### ALTAHREER | SOFTWARE ENGINEER INTERNSHIP

APR 2024 – NOV 2024

- Their website was a simple html & css website, I made it using next js and sanity io.
- I helped in redesign the products images to fit the theme of the site, then bring them into the system.
- I got a score of 95% in the internship.

### UNRWA | SOFTWARE ENGINEER VOLUNTEER

SEP 2025 – PRESENT

- Assisted in diagnosing and resolving hardware, software, and network issues for clinic staff.
- Contributed to improving internal workflows by documenting recurring issues and recommending solutions.
- Supported data entry and digital record organization to help streamline clinic operations.
